

## A TRULY CLIMATE POSITIVE EXPERIENCE

At Tropic Wings we are constantly working to improve our sustainability. However, like almost all business activities today, your tour still has a small carbon footprint. That's why we're happy to partner with Reforest. Reforest is an innovative new solution that offers a way to take action on carbon emissions that is tangible, meaningful and collaborative. Through Reforest, we will plant enough trees in a local reforestation project to remove all the carbon emissions from your Cape Tribulation tour. The project we have selected is restoring agricultural land on the Atherton Tablelands, planting a combination of rainforest and native conifer species. As well as removing CO<sub>2</sub> and protecting biodiversity, the trees we plant will reduce erosion and sediment runoff, helping to protect the Great Barrier Reef.

## DOING YOUR BIT FOR ANIMAL RESCUE & REHABILITATION

\$5 from your tour will be donated to TARC.

TARC our Non-profit Tropical Animal Rescue and Rehabilitation Centre (TARC) was established in 2018 with the support of the Walter and Eileen Leder Foundation, building on the longstanding work of The Woodward Family CaPTA Group. The facility is located at Wildlife Habitat Port Douglas. The goal of this facility is to provide the best possible care to displaced, injured, sick or orphaned native Australian wildlife from our region, whilst continuing involvement in conservation programs and research. This facility relies solely on donations for its operations.
